EXPERIENCE

Senior Software Engineer

ADTRAV, Birmingham, AL

April 2022 - PRESENT

- Serving as team liaison for migration from Bamboo to Azure DevOps to implement a standard on CI/CD process with in house DevOps team, at the moment specifically .NET Core and Blazor WASM projects. We are currently using on premise agents and plan to move to the cloud once all projects are migrated over.
- Architect on ADTRAV's .NET Core TripAPI by implementing a new controller that works with a new Blazor application. This includes server-side paging, filtering, and updating legacy controllers / endpoints to follow REST API standards along with using Swagger UI as our API documentation - C# / SQL.
- Maintenance of other .NET Core, .NET, Angular, and React applications.
- Documentation of legacy solutions - Confluence
- Assisting junior developers

Solutions Engineer

Momentum Technologies, St. Louis, MO

August 2021 - April 2022

- SSO - SAML
- Payment Gateways for credit cards - C#, .NET, SQL
- Data export via CSV - C#, .NET, SQL
- Learning Course data import - C#, .NET, SQL
- Git and Azure DevOps for source control and CI / CD

Software Developer II

E. A. RENFROE, Birmingham, AL

December 2016 - July 2021

- Integration of Microsoft Identity Server - C# / .NET / SQL
- Front-end UI work - Bootstrap 4 / HTML / CSS
- Integration with Twilio and Mandrill
- Maintenance of legacy .NET 4.8 applications and services
- Maintenance of Learning Management System integration
- Git and Azure DevOps for source control and CI / CD

General Programming / Audio / UI (Non-Professional)

Blitzkrieg Games, Mt.Vernon, IL

January 2021 - PRESENT

- Current Game In Development: Petrified using Unity. I have done most UI, all audio, and other general programming needs such as integration with Vivox for voice chat and text chat. The game launched into Early Access on Steam on October 31st, 2022. We are still implementing player feedback, QOL improvements, and other planned content. A Steam Key can be provided upon request.

EDUCATION

McKendree University, Lebanon, IL

Bachelor of Science in Computer Science
